4Sight 9 Battery Replacement

This guide will provide a step by step process to locate and remove the battery for the 4Sight.

Written By: Jack Applegate

INTRODUCTION

Use this guide to replace the battery on the 4Sight 9

TOOLS:

- Phillips #00 Screwdriver (1)
- Soldering Station (1)
- iFixit Opening Tools (1)

Step 1 — Cover

- Take tablet and rotate on its side, so that the two screws are facing upward.
- Use Phillips #00 Screwdriver to remove two 1mm screws on the left side of the tablet.

Step 2

- Insert plastic prying tool and pry back case away from the device slowly moving the plastic prying tool along the device.
- Once loosened, use hands to help separate case from device.

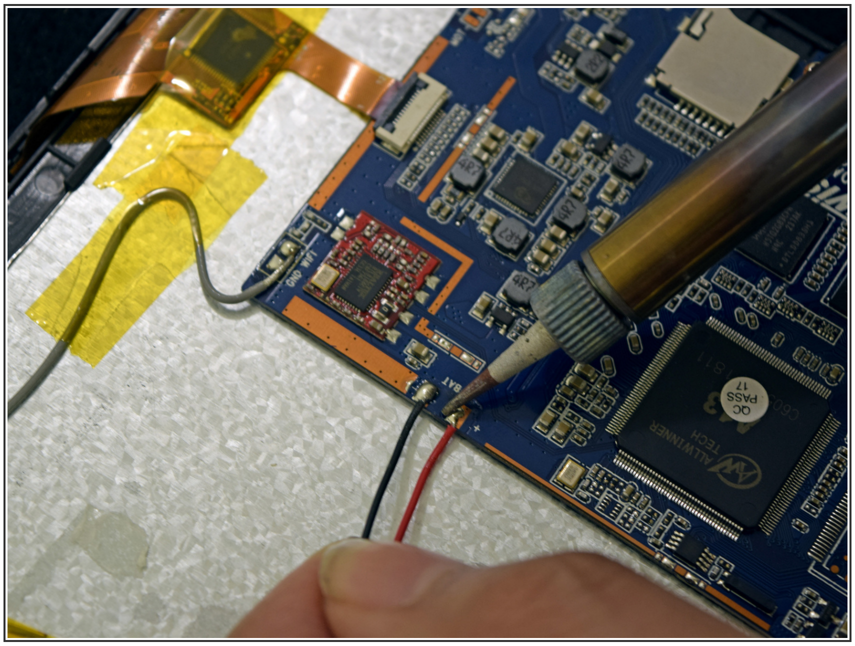

Step 3

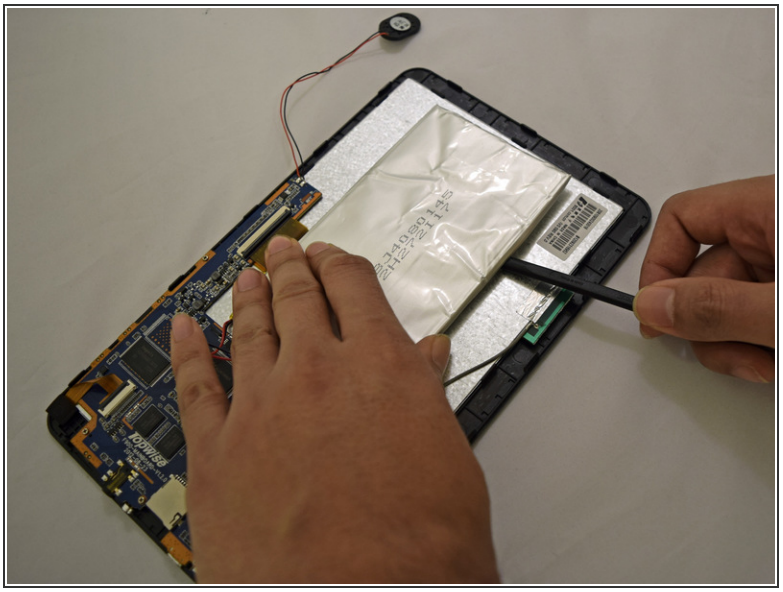

- Hold positive and negative wires as close as possible to the speaker.
- Use plastic prying tool and fingers to simultaneously lift speaker from cover.
- Set cover aside.

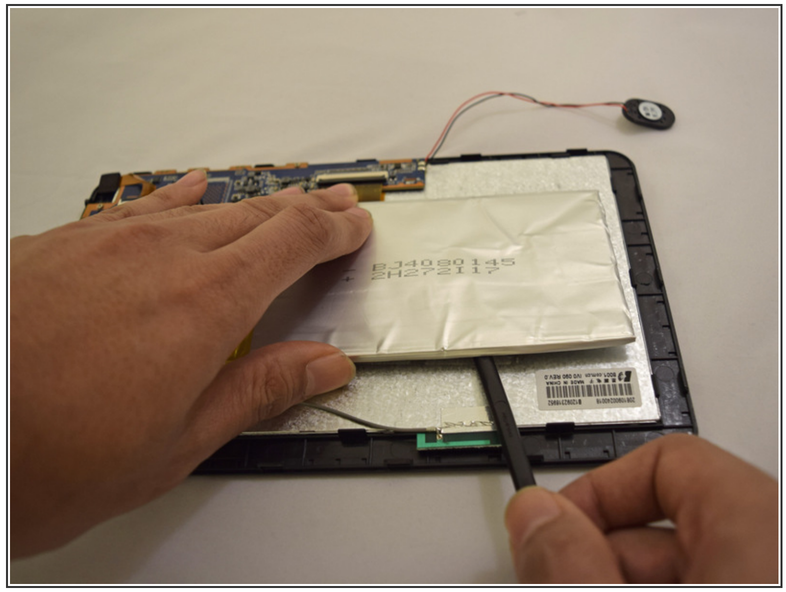

Step 4 — Battery

- Use soldering gun to remove the positive and negative wires connecting the battery to the circuit board.
- For a complete guide on how to solder, click here.

Step 5

- Insert plastic prying tool under upper-hand corner of battery and slide back and forth.
- Once loosened, insert plastic prying tool under lower-hand corner and repeat sliding action.
- ⓘ Repeat previous actions until battery comes loose from device.

To reassemble your device, follow these instructions in reverse order.
